First Official Response in a Critical Environment: Active Shooter Training
Announcing the 11th Annual U.S.N.S.T.A. Tactical Training Seminar

The United States National Standards of Training Association (U.S.N.S.T.A.) brings professionals from law enforcement, military, adult corrections, juvenile detention, protective services, and security together to solve critical issues faced by our nation's first responders.

During the 11th Annual U.S.N.S.T.A. Tactical Training Seminar, Controlled F.O.R.C.E. Training Management Systems will lead a team of experts in the delivery of a national standard of training for responding to critical situations where failure to act immediately will most likely result in officer and/or civilian loss of life.

The training is designed to improve the first responder's ability to remain confident and operational during critical situations with a determined offender(s). Training will cover content from controlling and arresting non-compliant subjects all the way up to responding to spontaneously occurring active shooter incidents.

All law enforcement, corrections, security, and military personnel are invited to attend this training seminar that covers five days of physically intense, hands-on training.

The 11th Annual U.S.N.S.T.A. Tactical Training Seminar will be held on December 6-10, 2010 at the Bally's Hotel & Casino in Las Vegas, NV, where over 30,000 square feet spanning two private floors will be utilized to conduct tactical training operations.

Contact the U.S.N.S.T.A. by calling 630-365-1400 or visiting www.usnsta.com for details on training, fees and registration, and cost saving opportunities including team sponsorships, discount room rates, and training vouchers.
